

ri.uvt.ro Page Hierarchy Model

Date: 2026-05-04

Scope: Phase 2 parent-child model for the future public site structure.

1. Hierarchy principles

- hierarchy should follow audience logic before institutional logic
- users should always know where they are in the site tree
- child pages should represent evergreen journey steps, not temporary yearly content
- each hub page should support local navigation and next-step movement

2. Primary hierarchy tree

- Home
- `About`
team, mission, regulations, reports
- `Erasmus`
incoming students, outgoing students, incoming staff, outgoing staff, partner countries, cooperation projects
- `Incoming students`
eligibility, application, accommodation, academic calendar, courses and ECTS, coordinators
- `Outgoing students`
how to apply, available places, after selection, learning agreement and ECTS, placements, BIP, funding
- `Incoming staff`
teaching mobility, training mobility
- `Outgoing staff`
teaching mobility, training mobility, staff training weeks
- `International students`
study programmes, non-EU, EU, Ukraine, Romanian diplomas abroad, preparatory year, free movers, refugees, Eugen Ionescu
- `Non-EU`
eligibility, required documents, application, scholarships
- `EU`
eligibility, required documents, application
- `Programmes`
AUF, Fulbright, DAAD, ACBS, other programmes
- `Partnerships`
international agreements, international lecturers, international memberships, Visiting UVT

3. Parent-child relationships by section

About

Parent page:

- About

Children:

- Team

- Mission
- Regulations
- Reports

Erasmus

Parent page:

- Erasmus

Children:

- Incoming Students
- Outgoing Students
- Incoming Staff
- Outgoing Staff
- Partner Countries
- Cooperation Projects

Nested children under Incoming Students :

- Eligibility
- Application
- Accommodation
- Academic Calendar
- Courses and ECTS
- Coordinators

Nested children under Outgoing Students :

- How to Apply
- Available Places
- After Selection
- Learning Agreement and ECTS
- Placements
- Blended Intensive Programmes
- Funding

Nested children under Incoming Staff :

- Teaching Mobility
- Training Mobility

Nested children under Outgoing Staff :

- Teaching Mobility
- Training Mobility
- Staff Training Weeks

International Students

Parent page:

- International Students

Children:

- Study Programmes
- Non-EU
- EU
- Ukraine
- Romanian Diplomas Abroad
- Preparatory Year
- Free Movers
- Refugees
- Eugen Ionescu

Nested children under Non-EU :

- Eligibility
- Required Documents
- Application
- Scholarships

Nested children under EU :

- Eligibility
- Required Documents
- Application

Programmes

Parent page:

- Programmes

Children or linked detail entries:

- AUF
- Fulbright
- DAAD
- ACBS
- Other Programmes

Partnerships

Parent page:

- Partnerships

Children:

- International Agreements
- International Lecturers
- International Memberships
- Visiting UVT

4. Hierarchy rules

- every child page must have a visible parent relationship
- each section should use breadcrumb navigation
- each major parent page should generate a local side menu from its children
- no yearly offer pages should sit as children under audience pages
- no test, duplicate, or archive-only pages should appear inside the public navigation tree

5. What should not become child pages

The following content should not be represented as nested static children:

- yearly calls
- staff training week offers by year
- news entries
- stories and testimonials
- downloadable files as standalone navigation nodes

These items should instead appear through dynamic archive listings, filtered modules, or related content blocks.

6. Editorial implications

- editors can manage the core journey through a predictable page tree
- translators can preserve the same structure across languages
- frontend developers can derive breadcrumbs and side navigation from WordPress ancestry
- users get a clearer sense of progression through each audience journey

7. Final recommendation

The hierarchy should remain shallow at the top level, deeper only where step-by-step user guidance is necessary, and strict about separating evergreen structure from temporary or repeatable content.
